20% COMPOUND FRUIT ACID SERUM

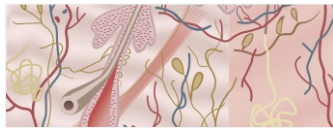

Natural Extract
Mild And Sustained Release

FRUIT ACID REJUVENATION MECHANISM

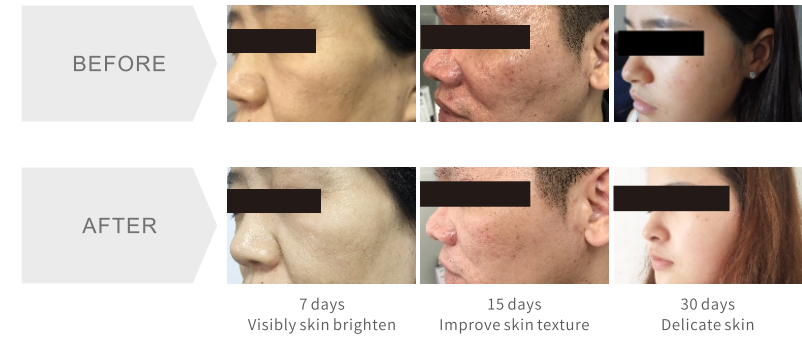

- Regulate keratinization
- Stimulate the dermis
- Collagen regeneration

- Activate epidermal skin
- Promote metabolism
- Mucopolysaccharide synthesis

CLINICAL EFFECT

Usage:

Apply 2-3 drops after cleansing in the evening. For sensitive skin can be applied 1-2 drops once per 2 days. Continued with moisturizing repair products.
2 PCS is one course of treatment

USAGE TIPS

- 1 For sensitive skin, please try it for 10-15 minutes behind the ear. It can be used directly on the face without discomfort; sensitive skin is recommended to be used every two days.
- 2 Avoid fragile parts such as skin lesions, eyes, and lips.
- 3 If it appears itching, redness, peeling is normal during usage, pay more attention to moisturizing and sun protection. (If there is redness and swelling, it is recommended to stop immediately for 2-3 days, and it is not recommended to use the skin in the inflammatory period).
- 4 Do not use keratin peeling like other AHA, fruit acid, BHA products at the same time.
- 5 Pay attention to moisturizing and sun protection after using this product.
